

B210 UNDERBODY

Underbody protector- HS

A) DESCRIPTION AND FIELDS OF APPLICATION:

Bitumen-based high solid protective treatment for automobiles. High noise-proofing power, anti-corrosive and anti-abrasive. Protects the automobile from humidity, sun and the abrasive action of salt and stones.

B) TECHNICAL DATA:

Composition	Rubbers, bitumen and solvents
Specific weight	1,3 ± 0,1
Available colours	Black
Safety data	See Safety data sheet

C) PROCESSING :

Clean and degrease the surface to be treated. Utilize a spraygun fitted with screw- on lid cans and apply at a pressure of 4-5 atm. at 15-20 cm. from the support.

The product should not be subjected to mechanical stresses before 24 hours from application (for inst. car washing with pumps and pressure jets of hot water).

D) CAUTIONS:

- * Shake well before using
- * Do not utilize the product at temperatures below 5 °C
- * After storage at low temperatures, it is recommended to recondition the product at 20 °C before using.

Technical indications and advices are based on our own experiences. We assure the perfect quality of products. However, being the utilization out of our control, we assume no responsibility on the results obtained
