

**T++ TIXO****Thixotropic glue for marbles and stones****A) DESCRIPTION AND FIELDS OF APPLICATION:**

Pasty compound characterized by high thixotropy. Very suitable for vertical jobs and for repair of material already fixed. Once hardened, it takes on all the characteristics of the marble and can be worked with the ordinary tools and machineries employed for the marble itself. It offers excellent adhesion to all natural stones, like marble, granite, onyx and good adhesion to wood, concrete, ceramic. Provides an all special flow allowing to save 20% labour. Can be easily coloured by the addition of paste pigments for polyesters.

B) TECHNICAL DATA:

Composition	Unsaturated polyester resin and mineral charges.
Specific weight	1,75 ± 0,1
Available colours	Different colours
Safety data	See safety data sheet

C) SURFACE PREPARATION :

* Make sure surface is free from dust and grease and perfectly dry.

D) CAUTIONS:

- * Mix well the glue with 1-3% paste hardener.
- * Do not exceed with hardener ratio.
- * Do not utilize the product at temperature below 5°C.
- * Store in a cool and dry place.

T++

E) PROCESSING:

1-3% C10 paste hardener Pot life >3' at 20 °C

Application by putty knife

<30' at 20 °C

4-5' at 1 m.

F) TOOLS CLEANING:

* With nitro thinner.

G) FURTHER STEPS:

Ordinary sanding and polishing operations.
